

## Rabat-Salé tram company selects the consortium M2M / ACS to provide a contactless ticketing system for the tramway of the Moroccan Capital.

**Casablanca - March 31, 2010:** The consortium **M2M Group-ACS** has been selected to implement an integrated ticketing system for the future tramway of Rabat-Salé based on **smart contactless tickets and cards that are compliant to latest international standards.**

Within this project, **M2M Group** will supply the contactless card management system and all associated engineering services, in addition to installing automatic Ticket Vending Machines, Point of Sales Terminals and Validators. **M2M Group** will also deliver training, maintenance and support services for the global system.

The system that will be implemented by the consortium combines the benefits of leading edge technology with large evolutivity perspectives.

The system features high **capability to scale up to multi-modal ticketing and to support multiple payment channels** such as bank card payment, ticketing on mobile phone via NFC technology, as well as using electronic driver's license and vehicle registration cards for card-based ticketing services.

This new achievement continues rapid implementation of **M2M Group** strategy, which was initiated over last five years and aims to diversify the company solutions offer addressing **large application domains of Secure Electronic Transactions such as e-payment, egov, e-ticketing and outsourcing.**
